Save Garfield Park Library!

To: Santa Cruz Library Joint Powers Board

We the undersigned residents of Santa Cruz County bring to your attention the essential role that the Garfield Park Branch of the Santa Cruz City Library plays in our community, and request that it be kept open and fully functional as a branch library at it's current location. This branch serves not only to provide safe access to library resources including books and other media, it serves as a community center providing internet access, a safe place for children to do homework, a meeting and job posting area for teens, and many other functions. It is used and relied upon by residents from as far as Bonny Doon and Davenport as well as the Westside schools and local neighbors. The Garfield Library is vital to the youth and all ages of our community.
Thank you!
